

# TOM DENSMORE

## Technical Director

Tom has been a leader and innovator in the event and media production industry throughout his career. As a combination producer, director, and engineer he employs deep technical and problem-solving skills to find elegant and unique solutions to production challenges. He has consistently been an early adopter of emerging technologies, finding ways to deliver value, improve efficiency and delight clients.

### ESPECIALLY REWARDING PROJECTS

- Designed, programmed, and directed the installation of an interactive exhibit space that cast a vision for the future of communications and data sharing in the healthcare industry.
- Consulted on one of the first commercial applications of digital video technologies for a travel industry client in the Netherlands.
- Produced synchronized multi-screen video presentations to wow large audiences.
- Created award-winning multimedia training programs for corporate use on complex topics such as corrective counseling skills and performing real estate appraisals.
- Produced and directed a live satellite broadcast from Kuala Lumpur as part of a 24-hour global event.

### HAPPINESS OUTSIDE OF WORK

- Laughing with his wife as they enjoy the antics of their nine grandchildren
- Being outside for biking, golf or just about anything else
- Creating custom wood furniture or toys in his workshop
- Volunteering through church to use his gifts in the service of others
